# EduTech Hungary

EdTech Summit Hungary

For the third time, the **EdTech Summit Hungary** - Hungarian Educational Technology Conference and Exhibition will take place on **31 August 2024** in Budapest.

The aim of the international event is to provide information on the role and status of educational technology in Hungary and on an international level, as well as on the challenges and opportunities ahead. On the other hand, it aims to provide an opportunity to learn about pedagogical, methodological and technological tools and innovations related to digital education. The main focus of the event will be on digital technological innovations, gamification in line with the priorities of the Hungarian Presidency of the EU Council.

In addition, those interested in the topic will be able to get an overview of **recent changes in educational technology**, its actualities, the situation and the **future of education** in Hungary. They will also be informed about **innovative** pedagogical and technological **solutions** provided by educational technology, the possibilities for institutional and human resource development, and **good practices** in Hungary and abroad.

The conference will be **accompanied by an exhibition** of educational technology companies, where professionals will be able to learn about the application of the devices in schools and classrooms, offering an opportunity to initiate cooperation and dialogue between the players of the Hungarian educational technology market and the education and training system.
